

**Aviation Continuing Education's SafetyPro Training Center**  
Supervisory Fuel Safety Supervisor for Line Service Professionals

**Local Fire Official Verification Form**

After completing the 14 CFR 139.321 portion of the ACE, Inc. 16 Hour Supervisory Fuel Safety and Inspection Training, the line supervisor/manager must also receive hands on training on local fire regulations to be conducted by the local fire authority.

Completion of this form verifies that:

(Name) \_\_\_\_\_

has received training in local fire code requirements as they relate to fueling operations conducted on the airport as required by Federal Aviation Regulation, Part 139.321, Handling and Storage of hazardous substances and materials.

The training included:

\_\_\_\_\_ verbal briefing on applicable local fire code requirements covering  
Instructor's initial public protection, control of access to storage areas, fire safety in fuel farm, storage areas, mobile fuelers, fueling pits and fueling cabinets

\_\_\_\_\_ fire extinguisher (s) location/use  
Instructor's initial

\_\_\_\_\_ live demonstration of fire extinguisher types used at the facility  
Instructor's initial

\_\_\_\_\_ emergency shut-off location/use  
Instructor's initial

The training was completed on: \_\_\_\_/\_\_\_\_/\_\_\_\_

Signed: \_\_\_\_\_

Position: \_\_\_\_\_

Name of Fire Authority: \_\_\_\_\_

Please place the completed form in your training file confirming completion of a fire safety-training course acceptable to the Administrator of the Federal Aviation Administration. These records should be kept for three years.
